

HIGHLIGHT: L - SERIES (LOW-PROFILE DIRECTIONAL VALVES)

What the "L" are you talking about?

L-Series: Low-Profile, Low T.C.O.!

(Total Cost of Ownership)

VSD03L

Directional ON/OFF valve with integrated digital electronics.

- M12 - 5 pin connection
- Modes of operation
 - > IO-Link interface
 - > Power save mode
 - > Controlled by Low-power digital signals

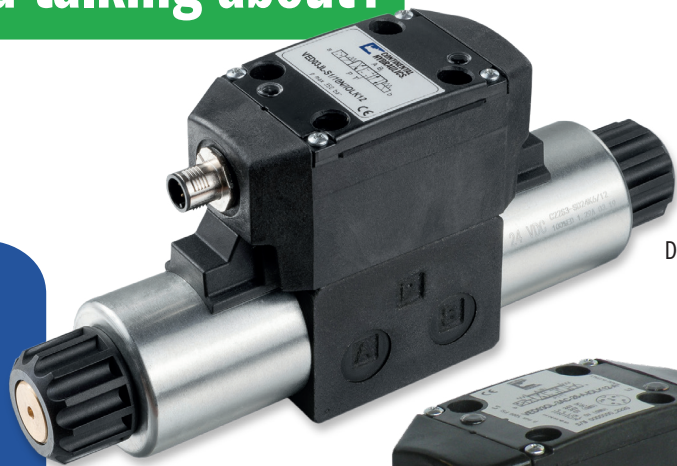

VED03GL / VED03JL

Proportional control valve with integrated digital electronics and with or without feedback.

- M12 - 5 pin connection
- Control interface input options
 - > Analog input ± 10 volt/4-20mA
 - > IO-Link Interface
 - > CAN open interface

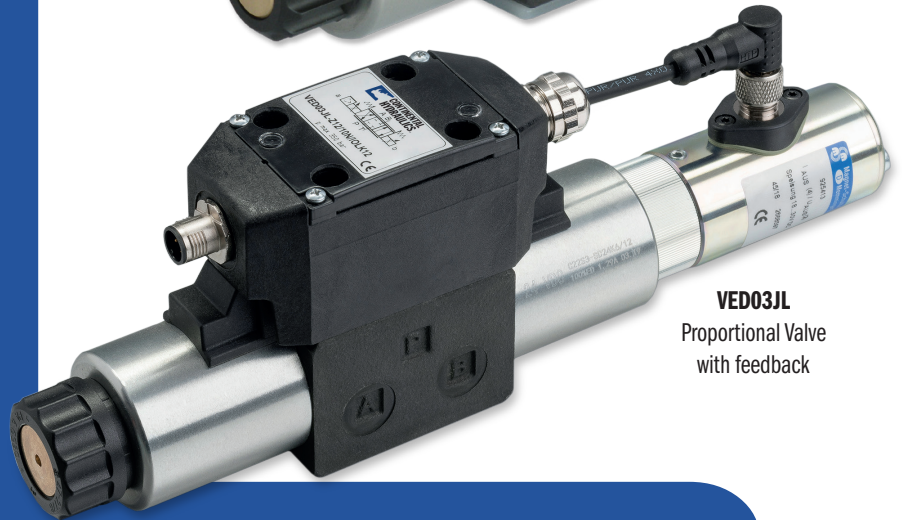

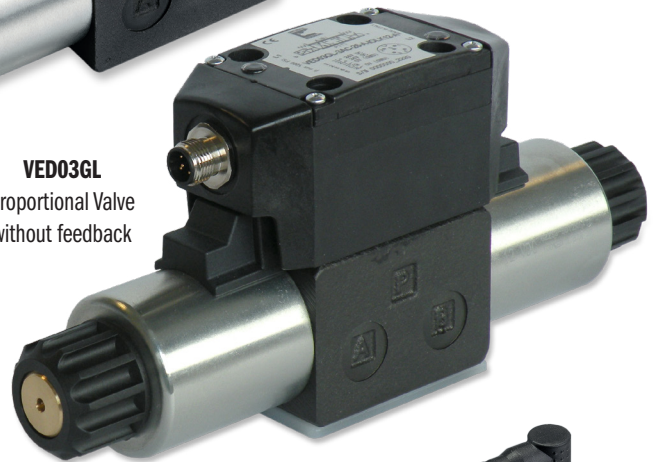

WHY these products are important?

1. Customers are always looking to reduce T.C.O. (Installation and Maintenance). The L-Series products cost less and installation is cheaper (5 pin x competitors 7 pin).
2. Customers are always looking to get more data and IO-Link Technology provides this.
3. Savings on Investment, Power Consumption, and Maintenance = Value.

VSD03L
On-Off
Directional Valves

VED03GL
Proportional Valve
without feedback

VED03JL
Proportional Valve
with feedback

Huge Value, Low Cost!
